

Pipsqueak® is the Perfect Tree for Smaller Garden Spaces

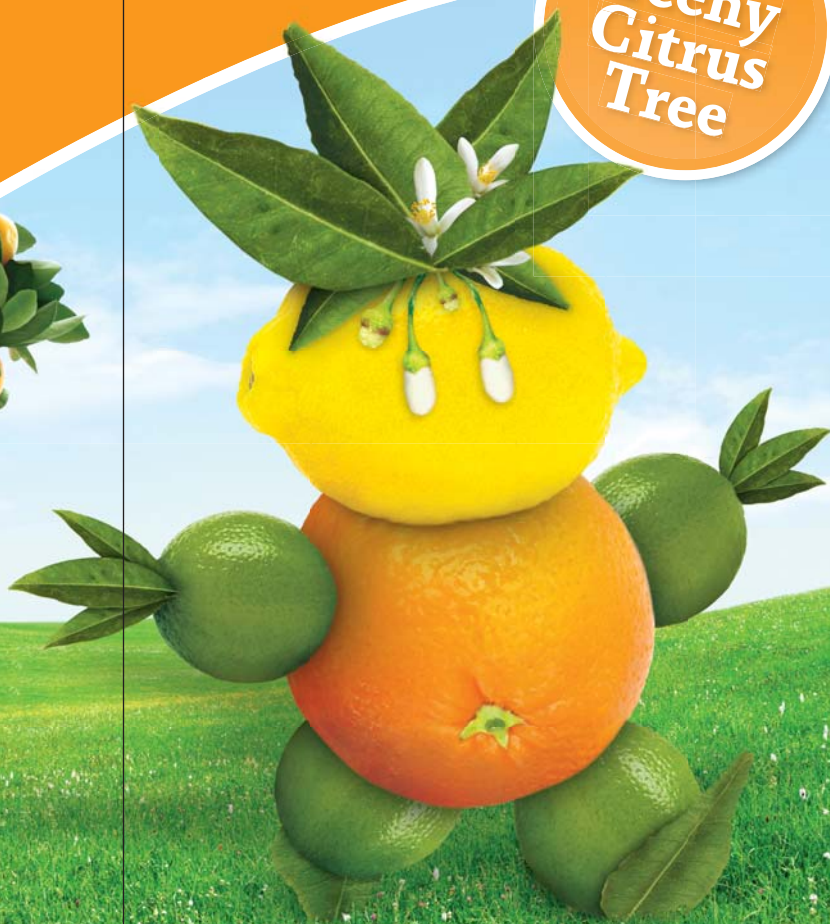

A fragrant flowering, evergreen shrub that produces bucket loads of citrus fruit when mature. Pipsqueak® will grow to a roundish shape and size of about 1.5 metres, and can be trimmed to retain a smaller size.

Pipsqueak® is grafted onto flying dragon rootstock for true dwarfing powers and disease resistance.

Dwarf Grafted Citrus Pipsqueak®

Lemon

Old Fashioned Tangy Lemon – Eureka Lemon

A tangy sharp tasting lemon and a tree that is almost always with fruit but most heavily in winter. The lemons produce a thin rind that makes a beautiful zest for cooking.

Sweet Juicy Lemon – Meyer Lemon

A cross between an orange and a lemon makes Meyer a very mild tasting lemon, which is almost orange in colour. The Meyer produces fruit throughout the year and is a very heavy cropping tree.

Lime

Spicy Leaf Lime – Kaffir Lime

The unusual leaves of the spicy leaf lime are used for cooking. They provide a delicious spicy warm citrus taste and are used mostly in Asian style dishes. Use the leaves whole or finely chopped.

Juicy Fruit Lime – Tahiti Lime

This is the fruiting lime, producing lovely medium sized juicy fruit in late winter and early spring. If you live in a cold region your limes will develop a yellow skin when they are ripe – the flesh inside will be lime green and delicious.

Orange

The Juicing Orange – Valencia Orange

Coming into season in spring the Valencia is a luscious juicy fruit. Run out to your tree with your basket and load up. You'll never buy another bottle of orange juice again.

The Eating Orange – Washington Navel Orange

This is a sweet tasting juicy orange, perfect for eating and cooking. A full flavoured mid season fruit that's easy to peel – look out for the eating orange's belly button.

Pipsqueak® Varieties

Choose from eight different Pipsqueak® varieties

Mandarin

The Lunchbox Mandarin – Imperial Mandarin

This tasty little mando' is perfect for popping in the lunchbox, delicious and full of juicy nutrition. Imperial Mandarin is a vigorous tree that produces large crops of mandarins very early in the season.

Easy to Peel Mandarin – Emperor Mandarin

A large fruit, this mando' is so easily to peel and segment you can do it with one hand. Emperor Mandarin comes into ripeness mid to late in the season producing a tasty and almost seedless fruit.
